PROFESSIONAL SUMMARY

Backend and DevOps Engineer with **2+ years** of experience architecting, building, and deploying **cloud-native microservices** on **AWS (EKS, EC2, S3, RDS, ALB, Auto Scaling)**. Deep hands-on expertise in **Java/Spring Boot** REST API development, containerizing workloads with **Docker**, and orchestrating production deployments on **Kubernetes**. Proven track record of automating end-to-end **CI/CD pipelines** using **Jenkins** and **Azure DevOps**, reducing deployment time by **~45%** and enabling high-frequency, reliable release cycles. Skilled in infrastructure observability with **Prometheus, Grafana, and OpenSearch**, cutting incident detection time by **~80%**. Consistently delivers **scalable, fault-tolerant production systems** with measurable gains in performance, reliability, and operational efficiency.

TECHNICAL SKILLS

Languages	Java, SQL, Bash
Backend	Spring Boot, Spring Data JPA, Hibernate, REST APIs, Microservices, JWT
Cloud	AWS (EC2, EKS, S3, RDS, ALB, VPC, Auto Scaling, CloudWatch, IAM), GCP (GKE)
DevOps & CI/CD	Jenkins, Azure DevOps Pipelines, Maven, Git, Terraform
Containers	Docker, Kubernetes, Helm, Docker Compose
Databases	MySQL, PostgreSQL, Hazelcast (Distributed Cache)
Messaging	Apache Kafka
Monitoring	Prometheus, Grafana, ELK Stack (Elasticsearch, Logstash, Kibana), Zipkin, OpenSearch
OS & Strategies	Linux (RHEL), Blue-Green & Rolling Deployments
Practices	Agile/Scrum, REST API Testing (Postman), UAT, Performance Testing

EXPERIENCE

Wipro Limited Project Engineer	Chennai, India Oct 2024 – Present
--	--------------------------------------

- ◇ **Microservices & Backend Development**
 - Architected and deployed **3+ Spring Boot microservices** on **AWS EKS**, supporting **500+ concurrent users** with **99.2% uptime** through fault-tolerant, horizontally scalable design.
 - Engineered asynchronous event-driven communication using **Apache Kafka**, increasing system throughput by **~35%** and reducing inter-service message latency by **~200 ms**.
 - Optimized distributed caching with **Hazelcast** (TTL: 10–300s), cutting database query latency by **~40%** and improving average API response time from **800 ms to 480 ms**.
- ◇ **CI/CD & DevOps Automation**
 - Automated end-to-end CI/CD pipelines using **Azure DevOps Pipelines, Jenkins, and Maven**, accelerating release cycles by **~45%** across multiple environments.
 - Containerized services with **Docker** and orchestrated production workloads on **AWS EKS**, enabling **zero-downtime rolling deployments** and elastic scaling.
- ◇ **Observability & Infrastructure**
 - Implemented real-time observability with **Prometheus, Grafana, and ELK Stack**, reducing incident detection time from **15 min to 3 min (~80% improvement)** and MTTR by **~50%**.
 - Managed core AWS infrastructure (EC2, S3, RDS, ALB, Auto Scaling, CloudFront) and authored **shell scripts** for automated health checks, log rotation, and Linux (RHEL) system maintenance.

ACHIEVEMENTS

- **KubeOps**: Developed a browser-based Kubernetes operations platform using **Spring Boot** and **Angular** as a personal DevOps initiative to enhance cluster visibility, automate kubectl workflows, and streamline day-to-day Kubernetes and SRE operations on **AWS EKS**. The platform includes the following key features:

• Real-Time Cluster Monitoring	• Browser-Based kubectl Terminal	• AWS EKS Integration
• Resource Metrics Dashboard	• Hazelcast Cache Integration	• RBAC Access Control
• Logs Viewer & Analysis	• Deployment Management	• Multi-Namespace Support
• AI Integration	• PostgreSQL Management	• One-Click Operations

EDUCATION

Kakatiya University B.E. in Mechanical Engineering	<i>Telangana, India</i> 76.7%
NRI Junior College 10+2 — Mathematics, Physics & Chemistry (MPC)	<i>Telangana, India</i> 93.9%

LANGUAGES

Languages: English (*Advanced*) · Hindi (*Advanced*) · Telugu (*Proficient*)

INTERESTS & HOBBIES

- **Automation Enthusiast:** Passionate about leveraging open-source tools and building custom automation solutions to improve operational efficiency and reduce manual effort.
- **Technology Enthusiast:** Enjoy hands-on exploration of system hardware, performance tuning, and emerging technologies to achieve optimal system performance.
- **Interest in Data Centers:** Interested in data center infrastructure, operations, reliability, and large-scale system management.
