PROFESSIONAL SUMMARY

DevOps & Cloud Engineer with hands-on experience in automating, deploying, and managing cloud-native applications and infrastructure on AWS environments. Strong expertise in Kubernetes (EKS), Docker, AWS (EC2, S3, RDS, ALB, Auto Scaling, IAM, and CloudWatch), Jenkins CI/CD pipelines, Azure DevOps, Linux (RHEL), and infrastructure automation. Experienced in Kubernetes operations, monitoring, and observability using Prometheus, Grafana, ELK Stack and OpenSearch to improve system reliability and deployment visibility. Possesses strong understanding of microservices architecture and backend systems with exposure to Java, Spring Boot, REST APIs, and Apache Kafka.

TECHNICAL SKILLS

Cloud Platforms	AWS (EC2, EKS, S3, RDS, ALB, VPC, IAM, Auto Scaling, CloudWatch), Azure
Containers & Orchestration	Docker, Kubernetes, Helm, Docker Compose
DevOps & CI/CD	Jenkins, Azure DevOps Pipelines, Terraform, Maven, Git
Monitoring & Observability	Prometheus, Grafana, ELK Stack (Elasticsearch, Logstash, Kibana), OpenSearch, Zipkin
Operating Systems & Scripting	Linux (RHEL), Bash
Programming & Backend	Java, Spring Boot, REST APIs, Microservices, Spring Data JPA, Hibernate
Databases & Messaging	MySQL, PostgreSQL, Apache Kafka, Hazelcast (Distributed Cache)
Practices	Agile/Scrum

EXPERIENCE

Wipro Limited <i>DevOps Engineer / Standard Chartered Bank Client</i>	<i>Chennai, India</i> <i>Oct 2024 – Present</i>
---	--

- ◇ **CI/CD & DevOps Automation**
 - Automated end-to-end CI/CD pipelines using **Azure DevOps Pipelines, Jenkins, and Maven**, accelerating release cycles by ~**45%** across multiple environments.
 - Containerized services with **Docker** and orchestrated production workloads on **AWS EKS**, enabling rolling deployments and elastic scaling.
 - Authored **shell scripts** for automated health checks, log rotation, and Linux (RHEL) system maintenance.
- ◇ **Kubernetes & Cloud Infrastructure**
 - Managed Kubernetes-based deployments and workload operations on **AWS EKS** for cloud-native microservices applications.
 - Managed AWS infrastructure components including **EC2, S3, RDS, ALB, Auto Scaling, IAM, and CloudWatch** for production environments.
 - Performed deployment troubleshooting, operational support, and environment validation to ensure deployment reliability and system stability.
- ◇ **Monitoring & Observability**
 - Implemented monitoring and observability using **Prometheus, Grafana, ELK Stack and OpenSearch** improving operational visibility and incident detection.
 - Monitored infrastructure and application health metrics to support reliable production operations and faster issue resolution.
- ◇ **Backend & Microservices Support**
 - Supported deployment and operational management of **Spring Boot microservices** running on AWS EKS environments.
 - Worked with **Apache Kafka** for asynchronous event-driven communication across distributed microservices.
 - Optimized distributed caching using **Hazelcast** (TTL: 10–300s), reducing database query overhead and improving API response performance.

PROJECTS & ACHIEVEMENTS

- **KubeOps**: Developed a browser-based Kubernetes operations platform using **Spring Boot** and **Angular** as a personal DevOps initiative to enhance cluster visibility, automate kubectl workflows, and streamline day-to-day Kubernetes and SRE operations on **AWS EKS** ([GitHub Repo](#)). The platform includes the following key features:

• Real-Time Cluster Monitoring	• Browser-Based kubectl Terminal	• AWS EKS Integration
• Resource Metrics Dashboard	• Hazelcast Cache Integration	• RBAC Access Control
• Logs Viewer & Analysis	• Deployment Management	• Multi-Namespace Support
• AI Integration	• PostgreSQL Management	• One-Click Operations

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate (SAA-C03)
- Credly Badge

EDUCATION

Kakatiya University B.E. in Mechanical Engineering	Telangana, India 76.7%
NRI Junior College 10+2 — Mathematics, Physics & Chemistry (MPC)	Telangana, India 93.9%

LANGUAGES

Languages: English (*Advanced*) · Hindi (*Advanced*) · Telugu (*Proficient*)

INTERESTS & HOBBIES

- **Automation Enthusiast:** Passionate about leveraging open-source tools and building custom automation solutions to improve operational efficiency and reduce manual effort.
- **Technology Enthusiast:** Enjoy hands-on exploration of system hardware, performance tuning, and emerging technologies to achieve optimal system performance.
- **Interest in Data Centers:** Interested in data center infrastructure, operations, reliability, and large-scale system management.
